## Installation:

White with Aluminum Inserts in stock in PA & AZ!

Mount to studs in wall using drywall screws through at least every third groove and into every stud. Masonry walls should be furred-out or studded to make a solid base for the panels. Mount bottom panel first if 2 - 48" h panels are to be stacked.

**Note:** When installing panels next to each other in a continuous row, put the end with a small mark next to the side that does not have any marks. Each panel has one end that has a small black mark and one end that is blank. Top and bottom edges of 3" o.c. panels have half-grooves. When joined, a fully functional groove results.

**Cutting:** With a hand power saw, use fine plywood blade and cut from back to avoid chipping laminate surface.

## Product Information:

**Panel Specifications:** Constructed of 3/4" thick Medium Density Fiberboard (MDF) with 48 lb. core density and an internal bond strength of 125 lb. per sq. inch. Panels are cut with industry stand "T" grooves spaced 3" on center.

**Size:** 4'H x 8'W panels are cut with half-groove edges to create a complete "T" groove when stacked.

## Hanging Strength:

While MDF panels with 125 psi-average lb. strength have excellent structural qualities, a panel's hanging strength is also affected by other factors. It becomes lower as space between grooves decreases and is affected by how and where the load is placed. For example, the farther from the panel face a product is hung, the less weight the panel will support. For best results, shelf brackets should be spaced 12" apart. Also, hanging strength with 6" of the edge is only 2/3 that of the rest.

# STOCKROOM SHELVING

Excalibur commercial grade shelving is versatile, durable, easy to install and extremely cost-effective. Our galvanized steel, pre-assembled uprights and one-piece shelves eliminate the need for additional hardware (clips, rivets, rails and support brackets). Shelving is fully adjustable on 2" tab spacing and simple to reconfigure as needs change. Our system is available with either solid, sustainable pine or rust proof, galvanized steel shelving and is offered in a wide range of sizes and component options to meet any design requirement.

## Additional Accessories
